VOLUME 77 · SUBJECT INDEX

Abnormal relaxation, Unusual left ventricular wall motion and a loud added sound during the isovolumic relaxation period in a patient with hypertensive heart disease **290**
Accessory pathway, Radiofrequency catheter ablation of accessory atrioventricular pathways **363**
ACE polymorphism, Should the contribution of ACE gene polymorphism to left ventricular hypertrophy be reconsidered? **489**
Activated protein C resistance, Plasma resistance to activated protein C regulates the activation of coagulation induced by thrombolysis in patients with ischaemic heart disease **122**
Acute myocardial infarction
Attenuation or absence of circadian and seasonal rhythms of acute myocardial infarction **325**
Influence of coronary nursing management follow up on lifestyle after acute myocardial infarction **256**
Patients with suspected myocardial infarction presenting with ST segment depression **493**
Added sound, Unusual left ventricular wall motion and a loud added sound during the isovolumic relaxation period in a patient with hypertensive heart disease **290**
Adenosine
Effect of oral aminophylline in patients with angina and normal coronary arteriograms (cardiac syndrome X) **523**
Intracoronary demonstration of adenosine-induced coronary collateral steal **78**
Aldosterone, Associations between circulating components of the renin-angiotensin-aldosterone system and left ventricular mass **24**
Aminophylline, Effect of oral aminophylline in patients with angina and normal coronary arteriograms (cardiac syndrome X) **523**
Amiodarone, Acute hepatitis complicating parenteral amiodarone does not preclude subsequent oral therapy **583**
Aneurysm, Aneurysm of the left coronary artery bifurcation **306**
Aneurysmectomy, Hypertrophic cardiomyopathy with apical aneurysm **481**
Angina, Antithrombotic treatment in stable coronary syndromes **13**
Angiography, Importance of right ventricular outflow tract angiography in distinguishing critical pulmonary stenosis from pulmonary atresia **456**
Angioplasty
Does a waiting time for elective coronary angioplasty affect the primary success rate? **432**
Less invasive coronary artery bypass grafting **302**
Safety of low dose heparin in elective coronary angioplasty **517**
Ticlopidine and aspirin interactions **11**
Angiotensin converting enzyme
Association of angiotensin converting enzyme and angiotensin II type 1 receptor genotypes with left ventricular function and mass in patients with angiographically normal coronary arteries **502**
Associations between circulating components of the renin-angiotensin-aldosterone system and left ventricular mass **24**
Angiotensin-converting enzyme inhibitor, Deterioration in renal function with enalapril but not losartan in a patient with renal artery stenosis in a solitary kidney **391**
Angiotensinogen, Associations between circulating components of the renin-angiotensin-aldosterone system and left ventricular mass **24**
Angiotensin II receptor blocker, Deterioration in renal function with enalapril but not losartan in a patient with renal artery stenosis in a solitary kidney **391**
Angiotensin II type 1 receptor, Association of angiotensin converting enzyme and angiotensin II type 1 receptor genotypes with left ventricular function and mass in patients with angiographically normal coronary arteries **502**
Anti-myosin antibodies, Cardiac autoantibodies in dilated cardiomyopathy become undetectable with disease progression **62**
Anticoagulants, Safety of low dose heparin in elective coronary angioplasty **517**
Anticoagulation
Atrial fibrillation begets trouble **393**
Hypercoagulability and haemodynamic abnormalities in atrial fibrillation **395**
Antiplatelet agents, Ticlopidine and aspirin interactions **11**
Antiplatelet treatment, Patients with suspected myocardial infarction presenting with ST segment depression **493**
Antithrombotic treatment
Antithrombotic treatment in stable coronary syndromes **13**
Hypercoagulability and haemodynamic abnormalities in atrial fibrillation **395**
Aortic coarctation, Should balloon angioplasty be used instead of surgery for native aortic coarctation? **86**
Aortic dissection, Imaging the thoracic aorta **87**
Aortic regurgitation
Acquired aortic regurgitation following occlusion of the persistent arterial duct **404**
Posterior deviation of left ventricular outflow tract septal components without ventricular septal defect **242**
Aortic stenosis, Natural history and outcome of aortic stenosis diagnosed prenatally **205**
Aorto-ostial lesions, Cutting balloon angioplasty and stenting for aorto-ostial lesions **350**
Aorto-pulmonary window, Transcatheter umbrella closure of aorto-pulmonary window **479**
Apoptosis, Apoptosis in cardiovascular disease **498**
Appropriateness
Appropriateness of intention to treat decisions for invasive therapy in coronary artery disease in The Netherlands **219**
Indications for coronary revascularisation **211**
Aprotinin, Stability of plasma concentrations of N- and C-terminal atrial natriuretic peptides at room temperature **392**
Arrhythmias
Inappropriate shocks in a patient treated with a cardioverter defibrillator **386**
Is long QT syndrome entering the era of molecular diagnosis? **5**
Prenatal findings in patients with prolonged QT interval in the neonatal period **198**
Artery remodelling, Vascular remodelling in intramyocardial resistance vessels in hypertensive human cardiac transplant recipients **353**
Aspirin
Aspirin protects low density lipoprotein from oxidative modification **333**
Ticlopidine and aspirin interactions **11**
Asplenia, Absence of mutations in the regulatory domain of the gap junction protein connexin 43 in patients with visceroatrial heterotaxy **369**
Asystole, Prolonged asystole induced by head up tilt test. Report of four cases and brief review of the prognostic significance and medical management **273**
Atherosclerosis
Assessing atherosclerotic plaque morphology **397**
Non-invasive assessment of endothelial function **297**
Relation between *Chlamydia pneumoniae* and atherosclerosis **7**
Atrial fibrillation
Atrial fibrillation and the pituitary-thyroid axis **3**
Atrial fibrillation begets trouble **393**
Haemostatic and haemodynamic abnormalities associated with left atrial thrombosis in non-rheumatic atrial fibrillation **407**
Heart failure and atrial fibrillation **309**
Hypercoagulability and haemodynamic abnormalities in atrial fibrillation **395**
Recovery of atrial systolic function after pharmacological conversion of chronic atrial fibrillation to sinus rhythm **46**
Reversible high rate atrial fibrillation dilated cardiomyopathy **486**
Role of signal averaged P wave duration and serum magnesium as a combined predictor of atrial fibrillation after elective coronary artery bypass surgery **527**
Signal averaged P wave compared with standard electrocardiography or echocardiography for prediction of atrial fibrillation after coronary bypass grafting **417**
Stroke and atrial fibrillation in sick sinus syndrome **495**
Atrial flutter, Long term outcome of electrical cardioversion in patients with chronic atrial flutter **56**
Audit, Putting the heart back into audit **9**
Autoimmune disease, Cardiac autoantibodies in dilated cardiomyopathy become undetectable with disease progression **62**
Autonomic nervous system, Attenuation or absence of circadian and seasonal rhythms of acute myocardial infarction **325**

Bacterial endocarditis, Listeria endocarditis **380**
Bacteriological characterisation, Clinical and bacteriological characteristics of infective endocarditis in the elderly **260**

Balloon dilatation, Should balloon angioplasty be used instead of surgery for native aortic coarctation? **86**
Balloon inflation, Effects of acute coronary occlusion and previous ischaemic injury on left ventricular wall motion in humans **338**
Balloon mitral commissurotomy, Percutaneous balloon mitral commissurotomy during pregnancy **564**
Balloon valvoplasty, Laser valvotomy with balloon valvoplasty for pulmonary atresia with intact ventricular septum **225**
Bartonella infections, Culture-negative endocarditis **474**
Basic fibroblast growth factor, Papillary endothelial hyperplasia in a TEC coronary atherectomy specimen **572**
Bioprosthesis, Poor clinical performance of the Wessex porcine heart valve bioprosthesis at nine years' follow up **319**
β blockers
Impaired left ventricular filling dynamics in patients with angina and angiographically normal coronary arteries **32**
Malignant vasovagal syncope **268**
Blood cardioplegia, Reduction of oxidative stress does not affect recovery of myocardial function **465**
Bradycardia, Prenatal findings in patients with prolonged QT interval in the neonatal period **198**
Brain natriuretic peptide, Brain natriuretic peptide predicts mortality in the elderly **264**
Buttoned device, Occlusion of congenital ventricular septal defects by the buttoned device **276**

Capacitor size, Does reducing capacitance have potential for further miniaturisation of implantable defibrillators? **234**
Carbamate, Cardiac manifestations of acute carbamate and organophosphate poisoning **461**
Cardiac arrest, QT interval dynamics and heart rate variability preceding a case of cardiac arrest **375**
Cardiac echinococcosis
Cardiac echinococcosis—a rare echocardiographic diagnosis **378**
Complete heart block caused by cardiac echinococcosis and successfully treated with albendazole **84**
Cardiac metastasis, Cardiac metastasis of an esthesioneuroblastoma **82**
Cardiac rhabdomyomas, Multiple cardiac rhabdomyomas **388**
Cardiac risk factors, QT interval as a cardiac risk factor in a middle aged population **543**
Cardiac specific antibodies, Cardiac autoantibodies in dilated cardiomyopathy become undetectable with disease progression **62**
Cardiac transplantation
Sympathetic reinnervation and heart rate variability after cardiac transplantation **532**
Vascular remodelling in intramyocardial resistance vessels in hypertensive human cardiac transplant recipients **353**
Cardiologists
Coronary patients need cardiologists **389**
Working as a cardiologist in the USA **194**
Cardiopulmonary bypass
Less invasive coronary artery bypass grafting **302**
Minimal access surgery **304**
Cardiovascular disease, Cardiovascular sequelae of toxaemia of pregnancy **154**
Cardiovascular mortality, QT interval as a cardiac risk factor in a middle aged population **543**
Cardioversion
Recovery of atrial systolic function after pharmacological conversion of chronic atrial fibrillation to sinus rhythm **46**
Ventricular tachycardia initiated by high energy cardioversion in a patient with an implantable cardioverter defibrillator **373**
Carotid endarterectomy, Surgical approach to coexistent coronary and carotid artery disease **164**
Carotid sinus syndrome, Study comparing VVI and DDI pacing in elderly patients with carotid sinus syndrome **553**
Catheter ablation, Hypertrophic cardiomyopathy with apical aneurysm **481**
Chemodectoma, Chemodectoma in a patient with a single ventricle **385**
Children
Percutaneous transhepatic dual chamber pacing in children with Fontan circulation **574**
Verapamil responsive incessant ventricular tachycardia resulting in severe ventricular dysfunction in a young child **286**
Chlamydia pneumoniae, Relation between *Chlamydia pneumoniae* and atherosclerosis **7**
Chronic atrial fibrillation
Electrocardiographic nature of restored sinus rhythm after Cox maze procedure in patients with chronic atrial fibrillation who also had other cardiac surgery **50**
Exercise capacity after His bundle ablation and rate response ventricular pacing for drug refractory chronic atrial fibrillation **238**
Chronic heart failure, Increased ventilatory response to exercise in chronic heart failure **138**
Churg-Strauss syndrome, Coronary involvement in the Churg-Strauss syndrome **576**
Circadian rhythm, Attenuation or absence of circadian and seasonal rhythms of acute myocardial infarction **325**
Clinical decision making, Factors affecting the therapeutic choice in patients with multivessel coronary artery disease **443**
Clonidine, Malignant vasovagal syncope **268**
Coagulation, Plasma resistance to activated protein C regulates the activation of coagulation induced by thrombolysis in patients with ischaemic heart disease **122**
Coarctation, Thrombus in coarctation of the aorta masquerading as an interrupted aortic arch **183**
Coils and embolisation, Occlusion of persistent left superior vena cava to unroofed coronary sinus using vena cava filter and coils **579**
Collateral arteries
Intracoronary demonstration of adenosine-induced coronary collateral steal **78**
Pulmonary atresia, "intact ventricular septum", and aortopulmonary collateral arteries **173**
Complete heart block, Complete heart block caused by cardiac echinococcosis and successfully treated with albendazole **84**
Complications of permanent pacing, Impact of continuous quality improvement on selection of pacing mode and rate of complications in permanent pacing **357**
Computer analysis, Measuring QT dispersion **539**
Congenital heart disease
Occlusion of persistent left superior vena cava to unroofed coronary sinus using vena cava filter and coils **579**
Transcatheter umbrella closure of aorto-pulmonary window **479**
Congestive heart failure
Abnormalities of skeletal muscle metabolism in patients with chronic heart failure **159**
Long term outcome of electrical cardioversion in patients with chronic atrial flutter **56**
Connexin 43, Absence of mutations in the regulatory domain of the gap junction protein connexin 43 in patients with visceroatrial heterotaxy **369**
Continuous quality improvement, Impact of continuous quality improvement on selection of pacing mode and rate of complications in permanent pacing **357**
Coronary angioplasty, Factors affecting the therapeutic choice in patients with multivessel coronary artery disease **443**
Coronary artery bifurcation, Aneurysm of the left coronary artery bifurcation **306**
Coronary artery bypass graft surgery
Factors affecting the therapeutic choice in patients with multivessel coronary artery disease **443**
Less invasive coronary artery bypass grafting **302**
Role of signal averaged P wave duration and serum magnesium as a combined predictor of atrial fibrillation after elective coronary artery bypass surgery **527**
Surgical approach to coexistent coronary and carotid artery disease **164**
Coronary artery bypass grafting
Appropriateness of intention to treat decisions for invasive therapy in coronary artery disease in The Netherlands **219**
Indications for coronary revascularisation **211**
Ischaemic preconditioning reduces troponin T release in patients undergoing coronary artery bypass surgery **314**
Minimal access coronary artery surgery **307**
Predictors of hospital readmission two years after coronary artery bypass grafting **437**
Reduction of oxidative stress does not affect recovery of myocardial function **465**
Signal averaged P wave compared with standard electrocardiography or echocardiography for prediction of atrial fibrillation after coronary bypass grafting **417**
Coronary artery disease
Antithrombotic treatment in stable coronary syndromes **13**
Does a waiting time for elective coronary angioplasty affect the primary success rate? **432**
Factors affecting the therapeutic choice in patients with multivessel coronary artery disease **443**

Flow resistance of individual neutrophils in coronary artery disease **18**
Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **390**
Less invasive coronary artery bypass grafting **302**
Coronary atheroma, Endothelial dysfunction in the absence of coronary atheroma causing Prinzmetal's angina **584**
Coronary blood flow, Transthoracic Doppler echocardiographic analysis of phasic coronary blood flow velocity in hypertrophic cardiomyopathy **558**
Coronary blood flow velocity, Intracoronary demonstration of adenosine-induced coronary collateral steal **78**
Coronary flow reserve, Myocardial bridging in a survivor of sudden cardiac near-death **280**
Coronary heart disease
Prospective relations between *Helicobacter pylori* infection, coronary heart disease and stroke in middle-aged men **294**
Relation between *Chlamydia pneumoniae* and atherosclerosis **7**
Coronary reserve, Adaptation of myocardial blood flow to increased metabolic demand is not dependent on endothelial vasodilators in the rat heart **147**
Coronary spasm, Cardiac strangulation, a rare complication of epicardial pacemaker leads during growth **288**
Coronary steal, Intracoronary demonstration of adenosine-induced coronary collateral steal **78**
Coronary vasculitis, Coronary involvement in the Churg-Strauss syndrome **576**
Critical pulmonary stenosis, Importance of right ventricular outflow tract angiography in distinguishing critical pulmonary stenosis from pulmonary atresia **456**
Cross sectional echocardiography, Cross sectional echocardiographic demonstration of the mechanisms of abnormal interventricular septal motion in congenital total absence of the left pericardium **247**
Culture-negative endocarditis
Culture-negative endocarditis **474**
Infective endocarditis **191**
Cutting balloon, Cutting balloon angioplasty and stenting for aorto-ostial lesions **350**
Cyanotic heart disease, Probable right ventricular dysplasia and patent foramen ovale presenting with cyanosis and clubbing in a patient with characteristics of Noonan syndrome **294**
Cyclosporin A, Vascular remodelling in intramyocardial resistance vessels in hypertensive human cardiac transplant recipients **353**
Cystathione β synthase, Homocysteinaemia and coronary atherosclerosis **390**

Dead space ventilation, Increased ventilatory response to exercise in chronic heart failure **138**
Decision analysis, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **487**
Defibrillation threshold, Does reducing capacitance have potential for further miniaturisation of implantable defibrillators? **234**
Diagnostic criteria, Experience from clinical genetics in hypertrophic cardiomyopathy **130**
Diastolic dysfunction, Echocardiographic evaluation of ventricular diastolic function **294**
Diastolic function, Impaired left ventricular filling dynamics in patients with angina and angiographically normal coronary arteries **32**
Dilated cardiomyopathy
Dilated cardiomyopathy **185**
Intractable recurrent ventricular tachycardia in dilated cardiomyopathy controlled by a vasodilating β blocker **581**
Reversible high rate atrial fibrillation dilated cardiomyopathy **486**
Diminished LDL oxidation, Aspirin protects low density lipoprotein from oxidative modification **333**
Dobutamine stress, Myocardial bridging in a survivor of sudden cardiac near-death **280**
Dobutamine stress test, Relation between ST segment elevation during dobutamine stress test and myocardial viability after a recent myocardial infarction **115**
Double umbrella, Transcatheter umbrella closure of aorto-pulmonary window **479**
Down's syndrome, Homocysteinaemia and coronary atherosclerosis **390**
Dual chamber pacing, Impact of continuous quality improvement on selection of pacing mode and rate of complications in permanent pacing **357**

Echocardiography
Acquired aortic regurgitation following occlusion of the persistent arterial duct **404**
Anatomical and echocardiographic correlates of normal cardiac morphology in the late first trimester fetus **68**
Echocardiographic evaluation of ventricular diastolic function **294**
High incidence of scintigraphic myocardial uptake defects at rest and during exercise in male elite runners **252**
Natural history and outcome of aortic stenosis diagnosed prenatally **205**
Prognostic significance of right ventricular afterload stress detected by echocardiography in patients with clinically suspected pulmonary embolism **346**
Quality control of stress echocardiography **97**
Transthoracic Doppler echocardiographic analysis of phasic coronary blood flow velocity in hypertrophic cardiomyopathy **558**
Unusual left ventricular wall motion and a loud added sound during the isovolumic relaxation period in a patient with hypertensive heart disease **290**
Elderly patients
Brain natriuretic peptide predicts mortality in the elderly **264**
Clinical and bacteriological characteristics of infective endocarditis in the elderly **260**
Should we treat hypercholesterolaemia in patients over 65? **491**
Study comparing VVI and DDI pacing in elderly patients with carotid sinus syndrome **553**
Electrical cardioversion, Long term outcome of electrical cardioversion in patients with chronic atrial flutter **56**
Electrical shock, Electrical injury on removal of implantable defibrillator after death **484**
Electrocardiogram
Effect of heart rate on QT interval in children and adolescents **128**
Measuring QT dispersion **539**
Embolism, Threatened paradoxical embolism **45**
Endocardectomy, Hypereosinophilic syndrome **391**
Endocarditis
Infective endocarditis **191**
Tricuspid valve endocarditis **501**
Endomyocardial fibrosis
Endomyocardial fibrosis in Egypt **391**
Hypereosinophilic syndrome **391**
Endothelial dysfunction, Endothelial dysfunction in the absence of coronary atheroma causing Prinzmetal's angina **584**
Endothelial function, Non-invasive assessment of endothelial function **297**
Endothelial vasodilating factors, Adaptation of myocardial blood flow to increased metabolic demand is not dependent on endothelial vasodilators in the rat heart **147**
Endothelin, Endothelin in heart failure **93**
Epicardial lead, Cardiac strangulation, a rare complication of epicardial pacemaker leads during growth **288**
Epidemiology, Brain natriuretic peptide predicts mortality in the elderly **264**
Esthesioneuroblastoma, Cardiac metastasis of an esthesioneuroblastoma **82**
Exercise
Effect of standing on ventricular parasystole **133**
Increased ventilatory response to exercise in chronic heart failure **138**
Exercise capacity, Exercise capacity after His bundle ablation and rate response ventricular pacing for drug refractory chronic atrial fibrillation **238**

Familial history, Dilated cardiomyopathy **185**
Familial hypertrophic cardiomyopathy, Experience from clinical genetics in hypertrophic cardiomyopathy **130**
Fascicular ventricular tachycardia, Experience with radiofrequency catheter ablation of fascicular tachycardia **104**
Fetal echocardiography, Prenatal findings in patients with prolonged QT interval in the neonatal period **198**
Fetal heart, Natural history and outcome of aortic stenosis diagnosed prenatally **205**
Fetus, Anatomical and echocardiographic correlates of normal cardiac morphology in the late first trimester fetus **68**
Fontan circulation, Percutaneous transhepatic dual chamber pacing in children with Fontan circulation **574**
Fontan operation, Iatrogenic atrioventricular bypass tract following a Fontan operation for tricuspid atresia **283**
Frequency domain analysis, Reproducibility of the signal averaged P wave **412**

Genetics
Association of angiotensin converting enzyme and angiotensin II type 1 receptor genotypes with left ventricular function and mass in patients with angiographically normal coronary arteries **502**
Dilated cardiomyopathy **185**
Glutathione, Role of leucocytes in free radical production during myocardial revascularisation **449**
Growth hormone, Potential for growth hormone in the management of heart failure **1**

Haemolysis, Early implantation of multiple spring coils for severe haemolysis after incomplete transcatheter occlusion of persistent arterial duct **477**
Head up tilt test
Malignant vasovagal syncope **268**
Prolonged asystole induced by head up tilt test. Report of four cases and brief review of the prognostic significance and medical management **273**
Heart failure
Endothelin in heart failure **93**
Heart failure and atrial fibrillation **309**
Potential for growth hormone in the management of heart failure **1**
Heart rate, Effect of heart rate on QT interval in children and adolescents **128**
Heart rate variability
Electrocardiographic nature of restored sinus rhythm after Cox maze procedure in patients with chronic atrial fibrillation who also had other cardiac surgery **50**
Heart rate variability **99**
Heart rate variability in idiopathic dilated cardiomyopathy **108**
QT interval dynamics and heart rate variability preceding a case of cardiac arrest **375**
Sympathetic reinnervation and heart rate variability after cardiac transplantation **532**
Heart valve prosthesis, Poor clinical performance of the Wessex porcine heart valve bioprosthesis at nine years' follow up **319**
Heart valve registry, United Kingdom Heart Valve Registry **295**
Helicobacter pylori, Prospective relations between *Helicobacter pylori* infection, coronary heart disease and stroke in middle-aged men **294**
Heparin, Safety of low dose heparin in elective coronary angioplasty **517**
Hepatitis, Acute hepatitis complicating parenteral amiodarone does not preclude subsequent oral therapy **583**
Hepatosplenic schistosomiasis, Endomyocardial fibrosis in Egypt **391**
His bundle ablation, Exercise capacity after His bundle ablation and rate response ventricular pacing for drug refractory chronic atrial fibrillation **238**
History
John Honour, Sir Thomas Lewis's personal laboratory assistant **568**
Thomas Lewis, a father of modern cardiology **102**
HLA-DR4, Idiopathic dilated cardiomyopathy **549**
Hospital readmission, Predictors of hospital readmission two years after coronary artery bypass grafting **437**
Hydatid cyst, Cardiac echinococcosis—a rare echocardiographic diagnosis **378**
Hydatid sand, Cardiac echinococcosis—a rare echocardiographic diagnosis **378**
Hypercholesterolaemia, Should we treat hypercholesterolaemia in patients over 65? **491**
Hypercoagulability, Hypercoagulability and haemodynamic abnormalities in atrial fibrillation **395**
Hypereosinophilic syndrome, Hypereosinophilic syndrome **391**
Hyperhomocysteinaemia
Homocysteinaemia and coronary atherosclerosis **390**
Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **390**
Hypertension, Vascular remodelling in intramyocardial resistance vessels in hypertensive human cardiac transplant recipients **353**
Hypertensive heart disease, Unusual left ventricular wall motion and a loud added sound during the isovolumic relaxation period in a patient with hypertensive heart disease **290**
Hyperthyroidism, Atrial fibrillation and the pituitary-thyroid axis **3**
Hypertrophic cardiomyopathy
Hypertrophic cardiomyopathy with apical aneurysm **481**
Regional study of presentation and outcome of hypertrophic cardiomyopathy in infants **229**
Transthoracic Doppler echocardiographic analysis of phasic coronary blood flow velocity in hypertrophic cardiomyopathy **558**
Hypothyroidism, Hypothyroidism, thyroxine treatment and the heart **189**

Idiopathic dilated cardiomyopathy
Cardiac autoantibodies in dilated cardiomyopathy become undetectable with disease progression **62**
Heart rate variability in idiopathic dilated cardiomyopathy **108**
Idiopathic dilated cardiomyopathy **549**
Implantable cardioverters defibrillators
Does reducing capacitance have potential for further miniaturisation of implantable defibrillators? **234**
Electrical injury on removal of implantable defibrillator after death **484**
Inappropriate shocks in a patient treated with a cardioverter defibrillator **386**
Ventricular tachycardia initiated by high energy cardioversion in a patient with an implantable cardioverter defibrillator **373**
Indications, Indications for coronary revascularisation **211**
Infant, Regional study of presentation and outcome of hypertrophic cardiomyopathy in infants **229**
Infection, Relation between *Chlamydia pneumoniae* and atherosclerosis **7**
Infective endocarditis, Clinical and bacteriological characteristics of infective endocarditis in the elderly **260**
Inferior myocardial infarction, Significance of initial ST segment changes for thrombolytic treatment in first inferior myocardial infarction **506**
Infrared light, Assessing atherosclerotic plaque morphology **397**
Infundibular pulmonary stenosis, Right ventricular outflow stent implantation **176**
In-hospital death, Sex and coronary heart disease **371**
In-hospital patency, Impact of early accelerated dose tissue plasminogen activator on in-hospital patency of the infarcted vessel in patients with acute right ventricular infarction **512**
Insecticides, Cardiac manifestations of acute carbamate and organophosphate poisoning **461**
Insulin-like growth factor (IGF-I), Potential for growth hormone in the management of heart failure **1**
Intact septum, Pulmonary atresia, "intact ventricular septum", and aortopulmonary collateral arteries **173**
Intention to treat, Appropriateness of intention to treat decisions for invasive therapy in coronary artery disease in The Netherlands **219**
Interatrial septum, Threatened paradoxical embolism **45**
Internal validity, Is there a need to control the placebo in placebo controlled trials? **95**
Interruped aortic arch, Thrombus in coarctation of the aorta masquerading as an interrupted aortic arch **183**
Interventricular septal motion, Cross sectional echocardiographic demonstration of the mechanisms of abnormal interventricular septal motion in congenital total absence of the left pericardium **247**
Interventricular septum, Posterior deviation of left ventricular outflow tract septal components without ventricular septal defect **242**
Intravascular ultrasound
Assessing atherosclerotic plaque morphology **397**
Intravascular ultrasound in patients with acute pulmonary embolism after treatment with intravenous urokinase and high-dose heparin **73**
New insight into plaque healing after plaque rupture with subsequent thrombus formation detected by intravascular ultrasound **293**
Ischaemia, Visualisation of exercise-induced ischaemia of the right ventricle by thallium-201 single photon emission computed tomography **40**
Ischaemic heart disease, Plasma resistance to activated protein C regulates the activation of coagulation induced by thrombolysis in patients with ischaemic heart disease **122**
Ischaemic preconditioning, Ischaemic preconditioning reduces troponin T release in patients undergoing coronary artery bypass surgery **314**
Isomerism sequence, Absence of mutations in the regulatory domain of the gap junction protein connexin 43 in patients with visceroatrial heterotaxy **369**
Isoprenaline, Effect of heart rate on QT interval in children and adolescents **128**

John Honour, John Honour, Sir Thomas Lewis's personal laboratory assistant **568**

K^+ channel openers, K^+ channel opening **487**

Laser valvotomy, Laser valvotomy with balloon valvoplasty for pulmonary atresia with intact ventricular septum **225**
Left atrial appendage, Left atrial appendage function during DDD and VVI pacing **428**
Left ventricular enlargement, Heart rate variability in idiopathic dilated cardiomyopathy **108**
Left ventricular filling, Impaired left ventricular filling dynamics in patients with angina and angiographically normal coronary arteries **32**
Left ventricular hypertrophy
Association of angiotensin converting enzyme and angiotensin II type 1 receptor genotypes with left ventricular function and mass in patients with angiographically normal coronary arteries **502**
Associations between circulating components of the renin-angiotensin-aldosterone system and left ventricular mass **24**
QT interval dynamics and heart rate variability preceding a case of cardiac arrest **375**
Should the contribution of ACE gene polymorphism to left ventricular hypertrophy be reconsidered? **489**
Left ventricular remodelling, Association of ventricular arrhythmias with left ventricular remodelling after myocardial infarction **423**
Leucocyte depletion, Role of leucocytes in free radical production during myocardial revascularisation **449**
Leucocytes, Flow resistance of individual neutrophils in coronary artery disease **18**
Life expectancy, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **487**
Lifestyle changes, Influence of coronary nursing management follow up on lifestyle after acute myocardial infarction **256**
Ligation of patent arterial duct, Acquired aortic regurgitation following occlusion of the persistent arterial duct **404**
Lipids, Hypothyroidism, thyroxine treatment and the heart **189**
Listeria monocytogenes, Listeria endocarditis **380**
Long axis function, Effects of acute coronary occlusion and previous ischaemic injury on left ventricular wall motion in humans **338**
Long QT syndrome
Is long QT syndrome entering the era of molecular diagnosis? **5**
Prenatal findings in patients with prolonged QT interval in the neonatal period **198**
Long term sequelae, Cardiovascular sequelae of toxaemia of pregnancy **154**
Low density lipoproteins, Aspirin protects low density lipoprotein from oxidative modification **333**
Low energy direct current, Radiofrequency catheter ablation of accessory atrioventricular pathways **363**

Magnesium, Role of signal averaged P wave duration and serum magnesium as a combined predictor of atrial fibrillation after elective coronary artery bypass surgery **527**
Metabolic gas exchange, Increased ventilatory response to exercise in chronic heart failure **138**
Microbiological monitoring, Infective endocarditis **191**
Minimal access surgery
Minimal access coronary artery surgery **307**
Minimal access surgery **304**
Molecular diagnosis, Is long QT syndrome entering the era of molecular diagnosis? **5**
Molecular genetics, Dilated cardiomyopathy **185**
Mortality
Brain natriuretic peptide predicts mortality in the elderly **264**
Long term outcome of electrical cardioversion in patients with chronic atrial flutter **56**
Measuring outcomes **88**
Significance of initial ST segment changes for thrombolytic treatment in first inferior myocardial infarction **506**
Mutation, Is long QT syndrome entering the era of molecular diagnosis? **5**
Myocardial blood flow, Adaptation of myocardial blood flow to increased metabolic demand is not dependent on endothelial vasodilators in the rat heart **147**
Myocardial bridging, Myocardial bridging in a survivor of sudden cardiac near-death **280**
Myocardial function, Adaptation of myocardial blood flow to increased metabolic demand is not dependent on endothelial vasodilators in the rat heart **147**

Myocardial infarction
Association of ventricular arrhythmias with left ventricular remodelling after myocardial infarction **423**
Flow resistance of individual neutrophils in coronary artery disease **18**
Measuring outcomes **88**
Surgical approach to coexistent coronary and carotid artery disease **164**
Myocardial injury, Effects of acute coronary occlusion and previous ischaemic injury on left ventricular wall motion in humans **338**
Myocardial ischaemia, Ischaemic preconditioning reduces troponin T release in patients undergoing coronary artery bypass surgery **314**
Myocardial protection, Role of leucocytes in free radical production during myocardial revascularisation **449**
Myocardial scintigraphy, High incidence of scintigraphic myocardial uptake defects at rest and during exercise in male elite runners **252**
Myocardial viability, Relation between ST segment elevation during dobutamine stress test and myocardial viability after a recent myocardial infarction **115**

N- and C- terminal atrial natriuretic peptides, Stability of plasma concentrations of N- and C-terminal atrial natriuretic peptides at room temperature **392**
Neurocardiogenic syncope, Malignant vasovagal syncope **268**
Nitric oxide, Non-invasive assessment of endothelial function **297**
Nodal duality, Mechanism of QRS electrical alternans **180**
Noonan syndrome
Probable right ventricular dysplasia and patent foramen ovale presenting with cyanosis and clubbing in a patient with characteristics of Noonan syndrome **294**
Regional study of presentation and outcome of hypertrophic cardiomyopathy in infants **229**

Optical coherence tomography, Assessing atherosclerotic plaque morphology **397**
Organogenesis, Anatomical and echocardiographic correlates of normal cardiac morphology in the late first trimester fetus **68**
Organophosphate, Cardiac manifestations of acute carbamate and organophosphate poisoning **461**
Oxidative stress, Role of leucocytes in free radical production during myocardial revascularisation **449**
Oxygen free radicals, Reduction of oxidative stress does not affect recovery of myocardial function **465**
Oxygen uptake kinetics, Oxygen uptake kinetics during low intensity exercise **168**

Pacemaker lead failure, Erratic prolongation of the pacing spike interval with presyncope as the only manifestation of minute bipolar lead insulation failure **384**
Pacemaker malfunction, Erratic prolongation of the pacing spike interval with presyncope as the only manifestation of minute bipolar lead insulation failure **384**
Pacing
Stroke and atrial fibrillation in sick sinus syndrome **495**
Study comparing VVI and DDI pacing in elderly patients with carotid sinus syndrome **553**
Pacing in infants, Cardiac strangulation, a rare complication of epicardial pacemaker leads during growth **288**
Pacing mode, Left atrial appendage function during DDD and VVI pacing **428**
Papillary endothelial hyperplasia, Papillary endothelial hyperplasia in a TEC coronary atherectomy specimen **572**
Patent foramen ovale, Probable right ventricular dysplasia and patent foramen ovale presenting with cyanosis and clubbing in a patient with characteristics of Noonan syndrome **294**
Patient selection, Does a waiting time for elective coronary angioplasty affect the primary success rate? **432**
Patients' views, Prioritising the cardiac surgery waiting list **330**
Percutaneous transluminal coronary angioplasty
Appropriateness of intention to treat decisions for invasive therapy in coronary artery disease in The Netherlands **219**
Indications for coronary revascularisation **211**
Pericardial defect, Cross sectional echocardiographic demonstration of the mechanisms of abnormal interventricular septal motion in congenital total absence of the left pericardium **247**
Persistent arterial duct, Early implantation of multiple spring coils for severe haemolysis after incomplete transcatheter occlusion of persistent arterial duct **477**

Pesticides, Cardiac manifestations of acute carbamate and organophosphate poisoning **461**
Physical training, High incidence of scintigraphic myocardial uptake defects at rest and during exercise in male elite runners **252**
Placebo effect, Is there a need to control the placebo in placebo controlled trials? **95**
Plaque healing, New insight into plaque healing after plaque rupture with subsequent thrombus formation detected by intravascular ultrasound **293**
Plaque morphology, Assessing atherosclerotic plaque morphology **397**
Polysplenia, Absence of mutations in the regulatory domain of the gap junction protein connexin 43 in patients with visceroatrial heterotaxy **369**
Preconditioning, Effects of acute coronary occlusion and previous ischaemic injury on left ventricular wall motion in humans **338**
Predictors, Predictors of hospital readmission two years after coronary artery bypass grafting **437**
Pregnancy, Percutaneous balloon mitral commissurotomy during pregnancy **564**
Prenatal diagnosis, Anatomical and echocardiographic correlates of normal cardiac morphology in the late first trimester fetus **68**
Primary pulmonary hypertension, Treatment of primary pulmonary hypertension with continuous intravenous prostaglandin **299**
Prinzmetal's angina, Endothelial dysfunction in the absence of coronary atheroma causing Prinzmetal's angina **584**
Prioritisation, Prioritising the cardiac surgery waiting list **330**
Proarrhythmic drugs, K^+ channel opening **487**
Prognosis
Listeria endocarditis **380**
Prognostic significance of right ventricular afterload stress detected by echocardiography in patients with clinically suspected pulmonary embolism **346**
Progressive heart failure, Heart rate variability in idiopathic dilated cardiomyopathy **108**
Prophylaxis, Infective endocarditis **191**
Prostacyclin, Treatment of primary pulmonary hypertension with continuous intravenous prostacyclin **299**
Pulmonary atresia
Importance of right ventricular outflow tract angiography in distinguishing critical pulmonary stenosis from pulmonary atresia **456**
Laser valvotomy with balloon valvoplasty for pulmonary atresia with intact ventricular septum **225**
Pulmonary atresia, "intact ventricular septum", and aortopulmonary collateral arteries **173**
Pulmonary embolism
Inappropriate shocks in a patient treated with a cardioverter defibrillator **386**
Intravascular ultrasound in patients with acute pulmonary embolism after treatment with intravenous urokinase and high-dose heparin **73**
Prognostic significance of right ventricular afterload stress detected by echocardiography in patients with clinically suspected pulmonary embolism **346**
Pulmonary hypertension, Intravascular ultrasound in patients with acute pulmonary embolism after treatment with intravenous urokinase and high-dose heparin **73**

QRS alternans, Mechanism of QRS electrical alternans **180**
QT dispersion, Measuring QT dispersion **539**
QT interval
Effect of heart rate on QT interval in children and adolescents **128**
QT interval as a cardiac risk factor in a middle aged population **543**
QT interval variability, QT interval dynamics and heart rate variability preceding a case of cardiac arrest **375**
Quality control, Quality control of stress echocardiography **97**
Quality of life, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **487**

Radiofrequency ablation
Experience with radiofrequency catheter ablation of fascicular tachycardia **104**
Iatrogenic atrioventricular bypass tract following a Fontan operation for tricuspid atresia **283**
Radiofrequency catheter ablation, Radiofrequency catheter ablation of accessory atrioventricular pathways **363**
Radiofrequency perforation, Importance of right ventricular outflow tract angiography in distinguishing critical pulmonary stenosis from pulmonary atresia **456**
Randomised clinical trials, Is there a need to control the placebo in placebo controlled trials? **95**
Rate adaptive pacing, Oxygen uptake kinetics during low intensity exercise **168**
Reinnervation, Sympathetic reinnervation and heart rate variability after cardiac transplantation **532**
Renal artery stenosis, Deterioration in renal function with enalapril but not losartan in a patient with renal artery stenosis in a solitary kidney **391**
Reperfusion, Flow resistance of individual neutrophils in coronary artery disease **18**
Repolarisation, Measuring QT dispersion **539**
Reproducibility, Reproducibility of the signal averaged P wave **412**
Revascularisation, Prioritising the cardiac surgery waiting list **330**
Right atrium, Threatened paradoxical embolism **45**
Right ventricle, Visualisation of exercise-induced ischaemia of the right ventricle by thallium-201 single photon emission computed tomography **40**
Right ventricular afterload stress, Prognostic significance of right ventricular afterload stress detected by echocardiography in patients with clinically suspected pulmonary embolism **346**
Right ventricular dysplasia, Probable right ventricular dysplasia and patent foramen ovale presenting with cyanosis and clubbing in a patient with characteristics of Noonan syndrome **294**
Right ventricular infarction, Impact of early accelerated dose tissue plasminogen activator on in-hospital patency of the infarcted vessel in patients with acute right ventricular infarction **512**
Risk factors, Hyperhomocysteinaemia and premature coronary artery disease in the Chinese **390**

Scotland, Measuring outcomes **88**
Screening, Idiopathic dilated cardiomyopathy **549**
Seasonal rhythm, Attenuation or absence of circadian and seasonal rhythms of acute myocardial infarction **325**
Secondary prevention
Coronary patients need cardiologists **389**
Influence of coronary nursing management follow up on lifestyle after acute myocardial infarction **256**
Septal defects, Occlusion of congenital ventricular septal defects by the buttoned device **276**
Sex bias, Sex and coronary heart disease **371**
Sick sinus syndrome, Stroke and atrial fibrillation in sick sinus syndrome **495**
Signal averaged electrocardiography, Signal averaged P wave compared with standard electrocardiography or echocardiography for prediction of atrial fibrillation after coronary bypass grafting **417**
Signal-averaged P wave
Electrocardiographic nature of restored sinus rhythm after Cox maze procedure in patients with chronic atrial fibrillation who also had other cardiac surgery **50**
Reproducibility of the signal averaged P wave **412**
Role of signal averaged P wave duration and serum magnesium as a combined predictor of atrial fibrillation after elective coronary artery bypass surgery **527**
Single chamber pacing, Impact of continuous quality improvement on selection of pacing mode and rate of complications in permanent pacing **357**
Single ventricle, Chemodectoma in a patient with a single ventricle **385**
Sinus cycle length, Effect of standing on ventricular parasystole **133**
Sir Thomas Lewis
John Honour, Sir Thomas Lewis's personal laboratory assistant **568**
Thomas Lewis, a father of modern cardiology **102**
Skeletal muscle metabolism, Abnormalities of skeletal muscle metabolism in patients with chronic heart failure **159**
Smoking, QT interval as a cardiac risk factor in a middle aged population **543**
SPECT
High incidence of scintigraphic myocardial uptake defects at rest and during exercise in male elite runners **252**
Visualisation of exercise-induced ischaemia of the right ventricle by thallium-201 single photon emission computed tomography **40**

Spectral analysis, Heart rate variability **99**
Spring coil, Early implantation of multiple spring coils for severe haemolysis after incomplete transcatheter occlusion of persistent arterial duct **477**
Stamp
Christiaan Neethling Barnard **406**
Ferdinand Sauerbruch (1875–1951) **301**
Joseph Skoda (1805-1881) **492**
René Henri Marie Leriche (1879–1955) **98**
Rudolf Karl Virchow (1821–1902) **193**
Sir William Osler (1849–1919) **10**
Standing, Effect of standing on ventricular parasystole **133**
Stents
Cutting balloon angioplasty and stenting for aorto-ostial lesions **350**
Right ventricular outflow stent implantation **176**
Strangulation, Cardiac strangulation, a rare complication of epicardial pacemaker leads during growth **288**
Stress echocardiography, Quality control of stress echocardiography **97**
Stroke
Atrial fibrillation begets trouble **393**
Stroke and atrial fibrillation in sick sinus syndrome **495**
Surgical approach to coexistent coronary and carotid artery disease **164**
Structural deterioration, Poor clinical performance of the Wessex porcine heart valve bioprosthesis at nine years' follow up **319**
ST segment depression, Patients with suspected myocardial infarction presenting with ST segment depression **493**
ST segment deviation, Significance of initial ST segment changes for thrombolytic treatment in first inferior myocardial infarction **506**
ST segment elevation, Relation between ST segment elevation during dobutamine stress test and myocardial viability after a recent myocardial infarction **115**
Subaortic stenosis, Posterior deviation of left ventricular outflow tract septal components without ventricular septal defect **242**
Submaximal exercise, Oxygen uptake kinetics during low intensity exercise **168**
Sudden cardiac death, Myocardial bridging in a survivor of sudden cardiac near-death **280**
Superior vena cava, Occlusion of persistent left superior vena cava to unroofed coronary sinus using vena cava filter and coils **579**
Supraventricular tachycardia, Iatrogenic atrioventricular bypass tract following a Fontan operation for tricuspid atresia **283**
Survival, Measuring outcomes **88**
Sympathetic nervous system, Sympathetic reinnervation and heart rate variability after cardiac transplantation **532**
Syndrome X
Effect of oral aminophylline in patients with angina and normal coronary arteriograms (cardiac syndrome X) **523**
Impaired left ventricular filling dynamics in patients with angina and angiographically normal coronary arteries **32**

Tachycardia, Experience with radiofrequency catheter ablation of fascicular tachycardia **104**
Tachycardia induced cardiomyopathy, Verapamil responsive incessant ventricular tachycardia resulting in severe ventricular dysfunction in a young child **286**
TEC atherectomy, Papillary endothelial hyperplasia in a TEC coronary atherectomy specimen **572**
Thallium-201, Visualisation of exercise-induced ischaemia of the right ventricle by thallium-201 single photon emission computed tomography **40**
Thromboembolic events, Left atrial appendage function during DDD and VVI pacing **428**
Thrombolysis
Impact of early accelerated dose tissue plasminogen activator on in-hospital patency of the infarcted vessel in patients with acute right ventricular infarction **512**
Plasma resistance to activated protein C regulates the activation of coagulation induced by thrombolysis in patients with ischaemic heart disease **122**
Thrombolytic treatment
Intravascular ultrasound in patients with acute pulmonary embolism after treatment with intravenous urokinase and high-dose heparin **73**
Patients with suspected myocardial infarction presenting with ST segment depression **493**
Significance of initial ST segment changes for thrombolytic treatment in first inferior myocardial infarction **506**
Thrombosis, Haemostatic and haemodynamic abnormalities associated with left atrial thrombosis in non-rheumatic atrial fibrillation **407**
Thrombus
New insight into plaque healing after plaque rupture with subsequent thrombus formation detected by intravascular ultrasound **293**
Papillary endothelial hyperplasia in a TEC coronary atherectomy specimen **572**
Thrombus in coarctation of the aorta masquerading as an interrupted aortic arch **183**
Thyrotrophin, Atrial fibrillation and the pituitary-thyroid axis **3**
Thyroxine, Hypothyroidism, thyroxine treatment and the heart **189**
Ticlopidine, Ticlopidine and aspirin interactions **11**
Time domain analysis, Reproducibility of the signal averaged P wave **412**
Toxaemia of pregnancy, Cardiovascular sequelae of toxaemia of pregnancy **154**
Transhepatic endocardial pacing, Percutaneous transhepatic dual chamber pacing in children with Fontan circulation **574**
Transoesophageal echocardiography
Haemostatic and haemodynamic abnormalities associated with left atrial thrombosis in non-rheumatic atrial fibrillation **407**
Imaging the thoracic aorta **87**
Left atrial appendage function during DDD and VVI pacing **428**
Treatment, Listeria endocarditis **380**
Trends in heart valve implantation, United Kingdom Heart Valve Registry **295**
Troponin T, Ischaemic preconditioning reduces troponin T release in patients undergoing coronary artery bypass surgery **314**
Tuberous sclerosis, Multiple cardiac rhabdomyomas **388**
TUNEL techniques, Apoptosis in cardiovascular disease **498**

Unroofed coronary sinus, Occlusion of persistent left superior vena cava to unroofed coronary sinus using vena cava filter and coils **579**
Urokinase, Antithrombotic treatment in stable coronary syndromes **13**

Valvar heart disease, Electrocardiographic nature of restored sinus rhythm after Cox maze procedure in patients with chronic atrial fibrillation who also had other cardiac surgery **50**
Valve prostheses, Prophylactic replacement of Björk-Shiley convexo-concave heart valves **487**
Vasovagal syndrome, Prolonged asystole induced by head up tilt test. Report of four cases and brief review of the prognostic significance and medical management **273**
Vena cava filter, Occlusion of persistent left superior vena cava to unroofed coronary sinus using vena cava filter and coils **579**
Ventricular arrhythmias, Association of ventricular arrhythmias with left ventricular remodelling after myocardial infarction **423**
Ventricular parasystole, Effect of standing on ventricular parasystole **133**
Ventricular tachycardia
Hypertrophic cardiomyopathy with apical aneurysm **481**
Intractable recurrent ventricular tachycardia in dilated cardiomyopathy controlled by a vasodilating β blocker **581**
Ventricular tachycardia initiated by high energy cardioversion in a patient with an implantable cardioverter defibrillator **373**
Verapamil responsive incessant ventricular tachycardia resulting in severe ventricular dysfunction in a young child **286**
Verapamil, Verapamil responsive incessant ventricular tachycardia resulting in severe ventricular dysfunction in a young child **286**
Visceroatrial heterotaxy, Absence of mutations in the regulatory domain of the gap junction protein connexin 43 in patients with visceroatrial heterotaxy **369**
VVIR pacing, Exercise capacity after His bundle ablation and rate response ventricular pacing for drug refractory chronic atrial fibrillation **238**

Waiting time, Does a waiting time for elective coronary angioplasty affect the primary success rate? **432**
Wessex bioprosthesis, Poor clinical performance of the Wessex porcine heart valve bioprosthesis at nine years' follow up **319**

Working abroad, Working as a cardiologist in the USA **194**

Zoonoses, Culture-negative endocarditis **474**
